Sprint 2 User Stories:

Add view for user profile + edit profile (10)
Add function to post delivery requests (5)
Add function to confirm delivery (15)
Add link to owner's profile in delivery request (10)
Add function to accept delivery request (15)
Add link to assistant's profile in accepted delivery request (5)
Add function to upload photo with delivery request (10)

Total points undertaken   (70)
Total points missed   (20)
Total points done   (50)
Velocity   (50)

- Miscommunication with upload photo
- Links not done, time constraints I guess (profile view was merged on Friday)
- Auth got started which wasn't expected.

Things we want to get done (in general)
- Fix builds
- Fix UI scaling on mobiles
- Add auth
- Add ratings
- Add search / filter
- Fix buggy firebase subscribe (if needed, check mobiles)
- Write and test user flows
- Polish code & tests
- Pliancy (error messages)
- (mobile notifications?)

Sprint 3 User Stories (with adjusted weights):

- Add link to owner's profile in delivery request (10)
- Add link to assistant's profile in accepted delivery request (5)
- Add function to upload photo with delivery request (5)
- Accounts / Auth (15)
- Fix builds (???)
- Fix scaling (5)
- Write and test user flows (15)
- Start with filters (10 out of 20)

Sprint 3 total: 65 + ???
